

Systemic Support

Intelligent & adaptive healing assistance

Systemic Support ORGANIC VISION

A selection of **premium superfood extracts** containing **powerful systemic enzymes** that supports your body's natural healing and cleansing process at an accelerated rate.

BENEFITS FOR YOU

- 1** Protect your heart against inflammation, clots & hardening of arteries 
- 2** Cleanse your blood from health sabotaging protein particles 
- 3** Alleviate chronic pain and inflammation without medication 
- 4** Reduce fibroids and scar tissue without surgery 
- 5** Natural clearing of congesting mucus 
- 6** Slow down the aging process 

9 SUPERFOODS

We have integrated 9 high quality extracts of superfoods including miso, koji, natto bean, pineapple stem & green papaya to give you a **unique blend** of **powerful systemic enzymes** to fight against disease, aging, fibroids and chronic pain.

HOW IS THIS POSSIBLE

Koji, a famous Japanese food product, contains the enzyme **protease** that can help **slow down the aging process** by promoting **better digestion, nutrient absorption, and overall cellular health**, according to *The Journal of Fungi*¹. It also aids in **post-workout recovery** by assisting in the breakdown and utilization of dietary and muscle proteins.

Miso, a well-known Japanese delicacy, contains the enzyme **peptidase** that promotes a balanced immune system and potentially **helping in autoimmune conditions**. Peptidase found in miso also helps **tissue repair and wound healing** processes, promoting **faster recovery** from injuries, according to the *Journal of Environmental Health and Preventative Medicine*².

Natto, a popular Japanese food, contains the enzyme **nattokinase**, which has potent blood-thinning properties, meaning it can **dissolve blood clots** by breaking down fibrin, a protein involved in clot formation. According to *Sage Journals*³, Nattokinase helps improve cardiovascular health by **improving blood circulation and reducing the risk of heart-related issues**. It also has a positive effect on cholesterol levels by helping to **reduce LDL ("bad") cholesterol and triglycerides**.

Pineapple Stem contains **bromelain**, a powerful enzyme which causes the body to make substances that fight pain and swelling. According to *Biomedical Reports*⁴, Bromelain also contains chemicals that **interfere with tumour cells** and slow blood clotting. It has shown to **reduce inflammation**, benefiting conditions like **arthritis and sports injuries**. It also **reduces bruising and swelling after surgeries**.

Raw Green Papaya Extract contains the enzyme papain, which according to a study done by the *University of the West Indies*⁵, helps in wound **healing and tissue repair**, as it helps remove dead tissue and promote the growth of healthy tissue. It contains analgesic properties, **helping to reduce pain and discomfort**.

Silkworm Protein Extract is a natural substance obtained from the harvesting of silkworm cocoons and extracting the protein-rich material found within. It contains the powerful enzyme **serrapeptase**, which exists in the intestine of the silkworm and facilitates disruption of the cocoon to free the silk moth. This enzyme is known for its potent **anti-inflammatory** properties and ability to **break down unwanted proteins** in the body. According to *Frontiers in Pharmacology*⁶, serrapeptase is effective in managing symptoms of Long COVID.

Seaprose S® is a semialkaline systemic enzyme that accelerates and supports healthy respiratory and sinus function. According to the *International journal of clinical pharmacology research*⁷, it is renowned for **decreasing** the viscosity of **mucus** and breaking down and consuming mucus. It supports the body's natural healing response and strengthens the immune system. It is obtained from fermentation of the fungus *Aspergillus melleus*.

Megadrile Earthworm Extract is a natural substance derived from earthworms belonging to the Megascolecidae family. According to the *Chinese Medical Journal*⁸, it contains the enzyme **lumbrokinase**, known for its ability to **break down fibrin**, a protein involved in blood clot formation. It is used as a natural alternative to conventional blood-thinning medications.

Pu-er Tea Extract contains the enzyme **catalase**, which according to the *Food Research International Journal*⁹ helps **protect cells** from oxidative damage, which can lead to various diseases and aging. Catalase is a vital enzyme that contributes significantly to detoxification.

WHY ORGANIC VISION

Unique

This product is one of a kind on the market, with carefully selected superfoods which contains powerful systemic enzymes that target healing throughout your entire body.

Powerful

This blend of systemic enzymes is extremely powerful in getting rid of fibrosis, scar tissue, long covid symptoms & chronic pain.

Complete

The variety of food extracts we have chosen give you a full range of systemic enzymes.

Effective

Results can be felt very quickly as your body works together systemically with these enzymes to repair and heal your body.

SUGGESTIONS

Aid Healing

4 capsules 4 times a day

Reduce chronic fibrosis,
Long COVID symptoms,
post-surgery or injury, high
blood pressure & cholesterol

Fix

3 capsules 3 times a day

Fix chronic pain and
inflammation

Maintain

2 capsules 2 times a day

Improve your body's
natural healing and detox
systems

Basic

2 capsules once a night

Support your body's
natural healing and detox
systems
